STATEMENT:
My position is Pro-life, Pro-2nd Amendment, Pro-small business, and Pro-PFD. According to my observation, Alaskans were doing much better financially before the changes on PFD policies. I've seen the changes on how PFD have been distributed the last 13 years. It used to be announced in September and we got our PFD check in the mail or in our bank account. The PFD was calculated based on the last 5 years of the average earning. The PFD program in my opinion, it worked out great for both Alaskans and the state. The last 6-7 years our PFD has however put into the budget using Senate Bill 26 which calculates our PFD differently by design based on percentage value not percentage earning which forced into a budget battle. Making it less than 1/3 or 1/4 of traditional value.

The solution is not to use our portion of PFD for the budget. The budget needs to be sustainable based on needs not wants. If we are saying yes to big government spending, we are saying no to our people because the bloated budget is too much a burden to bear. We need to put our people first by bring back our old PFD tradition, Hammond’s 50/50, 5-year average to put Alaskans in charge so we can be free as Alaskans and as state. Less government spending and more private economy.
